Quality Management System Manual

Document No.: YX-QMS-000 | Revision: 01 | Effective Date: May 24, 2025

1. Company Overview

Shenzhen Yixin Intelligent Manufacturing Electronics Co., Ltd. (YIXIN ELECTRONIC / 深圳市翊鑫智造电子有限公司) is a Shenzhen-based electronic components trading company serving overseas terminal factories and OEM buyers. We supply genuine ICs, discretes, passives, connectors, sensors, power modules, and related components with inspection-minded fulfillment from Shenzhen.

2. Quality Policy

We are committed to supplying genuine, high-quality electronic components that meet customer requirements. We prioritize authenticity, traceability, and responsive service, and continuously improve our processes to minimize risks of counterfeit or non-conforming products.

3. Scope of the Quality Management System

This QMS covers the processes of supplier evaluation, procurement, incoming inspection, storage, order fulfillment, and customer support for electronic components.

4. Documented Processes

The following controlled documents form the core of our quality system:

- YX-QMS-001: Counterfeit Mitigation Procedure
- YX-QMS-002: Basic Corrective Action Process
- YX-QMS-003: Incoming Inspection & Traceability Practice

5. Key Quality Controls

5.1 Supplier Management: An internal approved supplier list is maintained. Preference is given to original manufacturers, authorized distributors, and other reliable sources of genuine products.

5.2 Incoming Inspection: All goods are inspected for packaging integrity, labeling consistency, and signs of alteration before release.

5.3 Traceability: Lot codes, supplier information, and inspection records are maintained.

5.4 Counterfeit Prevention: Suspicious items are quarantined and not released for sale.

5.5 Customer Assurance: Support for third-party verification testing; returns for quality issues within agreed terms.

6. Responsibilities

Management: Overall responsibility for the quality system and resource allocation.

Sourcing / Procurement: Supplier evaluation and maintenance of the approved supplier list.

Warehouse / Operations: Incoming inspection, storage, and release of products.

7. Continuous Improvement

Quality issues and customer feedback are reviewed periodically. Corrective actions are taken as needed according to YX-QMS-002. This manual and related procedures are reviewed at least annually.

8. Status

This is an internal documented quality management system appropriate for a trading company. YIXIN ELECTRONIC has not yet obtained formal ISO 9001 certification. We are committed to maintaining and improving these controls. Contact: william.lien@yixinelectronic.com
